The home page header is a graphic that appears on the home page. A logo is a graphic that can be used on various parts of the site. You can customize the header by changing the background color.

Home Page Header, Logo, Options

Header
Create a header by uploading a graphic file and selecting the background behind the search bar, header, and navigation bar. A logo can be used as a header graphic.

Logo
A logo can be uploaded and used on various parts of the site. It will become the header if no header is uploaded.

Favicon
Upload a custom favicon to be displayed on the browser tab.

Search and Navigation
Customize the navigation and search bars by selecting background colors, along with custom colors for text links, hover colors, and drop-down links.
