Each portal can turn on an event calendar as a feature box on the home page. Events can be added manually or automatically from approved content catalogs.

Home Page Event Calendar

Setup
Turn the home page calendar on and turn automation on to automatically add events from selected catalogs. Keep or remove past events from the calendar. (You can still add events manually even if automation is on)

Manually add events to the calendar and feature them on the home page

Event Name	Catalog Name	Start Date	End Date	Time Zone	Add Event	Featured
The New Key Management - Unlocking the Safeguards of Keeping Keys Private	Convey Channel	10/15/2015	10/15/2015	America/New_York	☑	☐
